

FH BRUNDLE LTD

Queenslie Industrial Estate, Glasgow

PROJECT DETAIL:

SBC design and build project to construct a new 40,000 sqft distribution warehouse with external storage yard and parking.

Facilities include 5,000 sqft of office space over two floors with trade counter and 21,000 sqft external storage yard. The project also incorporates a number of FH Brundle products that are available through their catalogue.

The project provides FH Brundle Ltd with a modern distribution hub and trade counter to display and service their products to their expanding client base in the West of Scotland.

VALUE: £2.1m

PM/EA: DPMS

Architect: Bell Building Projects / NSW Architect

Engineer: Stuart McTaggart
