Dear Martin

NEW BREWING PRODUCTION FACILITY – LOANHEAD

I refer to the above project which was successfully completed for Stewarts Brewing earlier this year.

The design and build project was undertaken in a professional manner and delivered on time, with budget and to our overall satisfaction. The new building provides Stewarts Brewing with a modern facility in which to grow and develop the business.

I would have no hesitation in using Bell Building Projects again or recommending them to other companies seeking to undertake building projects.

Yours sincerely

Steve Stewart

Managing Director
